Serial No. 08/877,317

Art Unit 1633

The Office action mailed September 27, 1999 contained an error in that that Office action should have been made Final, but was not. Accordingly, the Advisory action mailed January 20, 2000 is vacated and this Final Office action is in response to the Request for Reconsideration filed January 4, 2000.

This application has been filed with informal drawings which are acceptable for examination purposes only. Formal drawings will be required when the application is allowed.

References AO, AP, AT, and BO listed on the form PTO-1449 filed July 2, 1999 have been considered. References AO and AT have been listed by their WO publication document numbers rather than their PCT serial numbers.

Claims 13-16, 19, 20, and 24-26 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. The instant application does not adequately teach an effect on any

organism by administration of any of the modified PNAs mentioned in the claims. This rejection is repeated for reasons already of record (e.g., Office action mailed March 29, 1999, pages 4-5). Rojanasakul is cited here as evidence that antisense treatment of organisms involves several problems, among them, stability of the oligonucleotide, uptake of the oligonucleotide, and specificity of hybridization of modified oligonucleotides to their intended targets. The instant application does not address these problems in connection with the administration of an antisense agent to an organism. Applicant's arguments (paper no. 7) are not convincing because applicant does not address any of the potential problems outlined in the rejection. Additionally, the response filed January 4, 2000 is not convincing because applicant does not address the reasoning and evidence set forth in the rejection, but merely asserts that there is no reasoning or evidence in the rejection.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Serial No. 08/877,317

Art Unit 1633

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
